Gereedschap voor installeren van elastische / rekbare V-riem EN-52112-2 Peugeot

Productcode: 116688-A-F1BS
Beschikbaarheid: 18

Prijs: 29,00 €

Omschrijving
Speciaal gereedschap voor het monteren van flexibele geribde V-riemen op de koelvloeistofpomp.

De meeste 3PK spanbanden kunnen niet worden gemonteerd met normaal of standaard universeel gereedschap.

Volgens de fabrikant moet bij demontage altijd de riem worden vervangen, omdat overmatig uitrekken tot vernietiging kan leiden.

Door de grote diameter van de krukas trillingsdemper/riemschijf kan de riem alleen op de waterpomp worden gemonteerd.
